Greg Waters - Dairy Queen
Kylie and her 2-year-old son came to DOVES of Gateway seeking safe shelter from her boyfriend who had been abusive to her for the past 12 years. She stated that the abuse started as verbal and emotional and escalated to physical violence over the last 10 years of their relationship. Upon her arrival, she had been sober for 2 years but needed help getting the rest of her life back on track. DOVES provided her with dentures to increase her self-esteem and employability as well as clothing and other items she needed for employment and child care (clothing, shoes, coat and a car seat). DOVES provided her with extensive safety planning and case management around her personal needs throughout her stay at the shelter and this support is ongoing as needed. Together with community partners, DOVES was able to ensure that she received the most valuable housing assistance available to the region and that she and her son were able to move into a safe home.
