KAREN WHEELER, COMMUNITY RELATIONS AND OPS SUPPORT COORDINATOR AT BEAM SUNTORY

“We approached United Way of the Bluegrass last year to discuss a potential merger as a way to enhance our ability to serve the Frankfort community. Through the merger with United Way of the Bluegrass, local agencies and programs will continue to receive support and our community will see a renewed and increased presence from United Way. Every member of our UWFC board of directors will extend their service through the UWBG Franklin County board of trustees. This speaks to our collective support of this decision, and continued commitment to the Frankfort community.”
CASA OF THE BLUEGRASS

Jeremy is a 17 year old boy who has been abused, neglected, and kicked out of his home. He resorted to living in his car until his school reported his situation to social services. He was appointed to the CASA program by the Family Court Judge where a CASA Volunteer and his social worker worked together to assess educational, medical, and therapeutic needs. The CASA also interviewed Jeremy’s biological family and his current foster placement and determined that the young man needed therapeutic services to address the trauma and emotional distress from his past experiences with abuse and neglect. The CASA volunteer worked with the young man to determine his path after his graduation and attended college visits and admissions meetings with Jeremy to ensure he was fully supported in his educational endeavors. The young man went on to graduate high school and will attend college this fall.
